Conference 11 from Phase A.

CONF. 11

HOW SOUL AND SPIRIT ARE MADE

WHAT IS THE SOUL?

It is a set of virtues, powers, faculties, forces, etc., which each one of us has latent in our Essence, contaminated at this moment. To the extent that the Essence is liberated and fixed in the spinal cord, they become free and awaken to serve our Consciousness.

Virtues: because each one of our defects that has been understood and eliminated is transformed into the virtue contrary to the defect.

For example: the defect of betrayal is transmuted into the virtue of fidelity, the thieving ego is transmuted into the virtue of honesty, anger into gentleness, lust into chastity, etc., etc.

Powers: because to the extent that the Kundalini rises through our spinal cord, creating each one of our bodies, we receive certain powers. Examples: when the Solar Physical body is created we receive the power to govern the Gnomes and Pygmies.

When the Solar Vital body is created we receive the power to govern the Undines and Nereids of the water. When the Solar Astral body is created we can travel in the Astral body to any place or star, enter the fifth dimension whenever we wish, and we also receive the power to govern the Salamanders of Fire, etc., etc.

When we create the Solar Mental body we can enter the mental world whenever necessary, come into contact with the Sylphs and Sylphids of the Air, and receive all their wisdom. And the power to govern all of Nature when the Solar body of the Will is created, which allows us to create even ourselves.

Faculties: because in each one of the Initiations we are granted faculties, which are latent in all beings, but which they do not know how to handle.

These faculties are: clairvoyance, clairaudience, polyvidence, the magical ear, presentiment, telepathy, telemetry, intuition, the faculty of communicating with the elementals of nature, etc., etc.

Forces: because to the extent that psychic development takes place, all those forces become integrated around our Being and we can do things that not even a thousand men together could do.

HOW IS THE SOUL MANUFACTURED?

The Soul is manufactured by working in the Three Factors as follows:

- Psychological Death: With death we save energy, we balance the centers and we liberate the Consciousness trapped in the defect.
- Spiritual Birth: Creation of the Existential Bodies of the Being, in the sexual union of a man and a woman, making wise use of our Sexual Creative Energy.
- Sacrifice for Humanity: Giving this Knowledge selflessly to other human beings (Merits of the heart for the work).

STEPS FOR THE MANUFACTURE OF THE HUMAN SOUL:

1- Receiving the Objective Knowledge (“Of a thousand who seek me, one finds me”).

2- Beginning the practice of the Three Factors.

3- Balancing the centers (“Of a thousand who find me, one follows me”).

4- Having a stable partner, for this is the Mountain of Birth.

5- Turning the waters around, or making them ascend through the spinal cord (not fornicating when practicing).

6- Receiving the Silver Sword.

7- Doing the Five Initiations of Major Mysteries:

7.1 Regeneration of the Solar Physical body.

7.2 Regeneration of the Solar Vital body.

7.3 Creation of the Solar Astral body.

7.4 Creation of the Solar Mental body.

7.5 Creation of the Solar body of the Will.

8- Choosing the Direct Path upon beginning the fifth of the major ones (“Of a thousand who follow me, one is mine”).

9- The Perfect Matrimony, or union of the Divine Soul and the Human Soul.

When we finish the Fifth Initiation we are turned into True Men. At that moment we can say that we have a Human Soul.

The creation of the five solar bodies is called the First Mountain, or the ascent of the Fire for the first time from the coccyx to the pineal gland. It is also called the manufacture of the Human Soul, or Genesis.

Physical Body 1

Vital Body 2

Astral Body 3

Mental Body 4

Causal Body 5

Buddhic Body 6

Atmic Body 7

Each initiation begins halfway between two centers and ends halfway between two centers.

HOW IS THE SPIRIT MANUFACTURED?

When the two Souls unite, the Divine and the Human, the first Triad is formed, which is: Atman, Budhi and Manas; this triad is called the Spirit.

The development of the Spirit takes place in the ascent of the Second Mountain.

In the Second Mountain the Seven Churches and the Seven Consciousnesses, or Seven Wisdoms, are developed and completed.

QUESTIONS:

How is a Body created?: A body is created by balancing the five lower centers (as was seen in the conference on the seven centers).

With the savings of energy in daily life, through psychological death, and the investment of those savings in sexual transmutation, we create each one of our bodies (as was seen in the conference on the seven bodies).

In how much time is a Body created?: A body is created in an approximate time of two and a half years, working seriously.

In how much time is the Soul created?: The soul is created in approximately thirteen years.

How do we know that the Work has already begun?: The work begins with chastity; it is necessary to understand the fornicating ego in order to light the fire, for this defect prevents any advance.

Once this aggregate dies we receive in the inner world a small silver sword with a white hilt. Each fornication makes us lose two vertebrae.

Can Bodies be created without a partner?: No, outside of sex nothing can be created; it is necessary, before anything else, to find a partner who is interested in this work and who loves the sexual work, for this work is very serious and requires continuity of purpose.

Can the Soul be created while being castrated?: No, in order to create the Soul it is necessary to have the sexual glands in perfect condition; castration is a crime against the Holy Spirit, the Creator. A castrated person cannot create anything; he would have to regenerate himself.

In how much time can the Second Mountain be done?: To do the Second Mountain we are given a thousand years with the same physical body, upon taking the decision of the Direct Path. But an initiate can do it in twenty years, working steadily.

Why, of a thousand who seek the Path, does only one find it?: Because of karma; many have had the Knowledge and have abandoned it, others have betrayed the Divine Mother, others have committed crimes against the Holy Spirit.

Others are seekers and do not even know what they are seeking. And all of them lost the right to have it for several existences.

Why, of a thousand who find it, does only one follow it?: Look, all of you already know what you must do, but a strange force does not let you begin the work, and you settle for listening to the conferences.

For some time you will be trying to do something, but the ego of laziness and your personality will make you return to your old habits. If you made a super-effort, helping others, you would receive a force that would propel you to start in earnest.

Why, of a thousand who follow it, does only one achieve it?: When one reaches the choice of the paths, 999 choose the path of Nirvana; they betray the Intimate Christ out of fear of the difficulties of the Second Mountain, and only one decides for the Absolute.

The path of Nirvana is not wished even on one's worst enemy, for a recurrence is established and that Being will never eliminate the Cause–Egos from his psyche. Therefore, he will never self–realize.

End of Conference 11.
