Conference 47 from Phase A.

CONF. 47

THE EGO OF WITCHCRAFT

We are going to study this subject with the purpose of understanding that we all have the ego of witchcraft in our interior and that it is necessary to eliminate it.

Witchcraft is intimately related to Sexual Magic. We have already taught that there exist three types of Sexual Magic or Tantrism:

- White Tantrism. Phallus-yoni sexual union without seminal ejaculation. Kundalini.
- Gray Tantrism. Practice of sex without transcendent purpose. Animal enjoyment.
- Black Tantrism. Infra-sexual practice with magical rites and seminal ejaculation. It awakens the Kundartiguador.

With this the intimate relationship existing between Sexual Magic and Witchcraft can be seen.

All the persons who travel this path must know that they are to be transformed into Angels or Demons, for they already know the secrets of Sex. And they know that the Sexual Creative Energy of the Holy Spirit holds the Elixir of Long Life.

The principal difference between a White Magician and a Black Magician is the quality of his knowledge.

HOW A WHITE MAGICIAN IS KNOWN

- The White Tantric never fornicates and always works in chastity.
- With White Tantrism the Kundalini ascends.
- With White Tantrism the Gods are formed.
- He awakens the Chakras.
- He opens the Churches.
- He liberates the Consciousness; the greater the quantity of liberated consciousness, the greater the quantity of awakened consciousness.
- He does the work of psychological death.

- They create the Seven Existential Bodies of the Being, which allow them to govern nature, the four Elements, to move consciously through all the dimensions of nature.
- They awaken all the senses that are now asleep.
- He arrives at fusion with his own Being.
- They teach and practice the three factors for the revolution of consciousness.
- They maintain the purity of the knowledge.
- They integrate their Being and achieve individuality.
- They become Christified.

HOW A BLACK MAGICIAN IS KNOWN

- When the Black Tantric spills the sexual creative energy, millions of solar atoms leave the seminal system, and in exchange millions of lunar atoms are reabsorbed, making the seminal envelope become blacker.
- With Black Tantrism they voluntarily awaken the powers of the inverted Fire or Kundartiguador.
- With Black Tantrism the Demons are formed.
- They put these powers at the service of their Ego.
- They do not eliminate the defects.
- They dominate the lower dimensions.

- They awaken some of the senses of psychic perception.
- They rise in rank within the Thirteen Degrees of the Anagarikas.
- They struggle to swell the satanic tail of the Kundartiguador.
- They make super-efforts to submerge humanities in the Abyss.
- They distance themselves from their Being for eternities.
- They give advice.
- They meddle in the lives of others.

- They threaten, attack, harm others with works of black magic.
- They harm others by imposing illnesses on them.

- They develop hatred toward other persons.
- They hate and feed hatred.
- They originate enmities with attacks.
- They do psychic works in order to disturb others.
- They kill with black magic.
- They kill using elementals and souls of the dead.

Let us reflect on all this in order to see in what we may be mistaken. When one is advancing on the Path, the normal thing is to go astray for lack of the work of Psychological Death. Let us discover the ego in order to go on eliminating it.

Because of the foregoing, it is urgent that we study the Black Magician, so that we may discover in our behavior all the behaviors of these and eliminate them from our psychology. Otherwise, sooner or later, we will fall into Black Magic.
