Conference 50 from Phase A.

CONF. 50

THE ORIGIN OF THE EGO

We are going to look at this subject of the Origin of the Ego. Its purpose is that we observe different aspects that took part at the moment when the Ego was created.

About 18.5 million years ago the sexes had already separated; humanity ceased to be androgynous; it was left divided into Adams and Eves. The female bodies were already ready to begin to practice sex in company.

All the Lucifers accepted the challenge, and they told human beings that if they wanted to be like the Gods, they would have to taste that fruit. The fruit was shared sex. For this they entrusted the Gurus or Masters with directing those practices of sex. All the couples were to go to the Temple for the practices of sex on the honeymoon, with two purposes:

- To reproduce the species.
- To create the Higher Existential Bodies of the Being.

Each spark was to begin to work with the two trees: the tree of Life, which was that of sex, and the tree of Good and Evil, which was that of Wisdom for Self-realization. Those two trees, then, have common roots, or share their roots with each other.

At that moment the comet Condor appears and crashes into the planet Earth. As a result of that collision of worlds, the earth's crust was destabilized, and in order to stabilize it again a sacred commission was sent, directed by the arch-physicists and arch-chemists Loaissus and Sakaki, to solve that problem.

The sacred commission resolved to install in all human beings the Kundartiguador organ, which was to stabilize the earth's crust. It is to be noted that this experiment had been carried out on other planets of the universe, and simultaneously it allowed the level of Wisdom of each planet to be established.

Likewise, at that moment it was determined that the degree of Wisdom for this planet would be four (4), that is, a planet of Christs or Masters. Because of the foregoing, the tail of the Kundartiguador was left three and a half days too long, with reference to the level of Consciousness. This established the cosmic desiderata of the planet. Translating this phrase: the level of Evil for the tree of Wisdom.

The tail of the Kundartiguador originated on the planet an Astral Tide or Lustful Wave, which unbalanced all human beings, leading them to practice sex outside the Temple. And, at the same time, to fornicate or spill the Sexual Creative Energy outside the amphora.

As a result of this, we were expelled from Paradise. And the second nature was created in the dwellers of the planet.

We can observe that until this moment the sparks were innocent; they did not know Evil. Furthermore, the tail of the Kundartiguador was delayed so that the sparks might reach as far as they had to reach. Humans became terribly perverse; they became hypnotized and fascinated in Evil, to the point where they were no longer interested in the Self-realization of the Being. Some began to commit suicide; there was no longer any reason to exist.

Because of the foregoing, the sacred commission returned to the planet Earth to remove the Kundartiguador organ, since it had already achieved its objectives. But the planet Earth was left in the most absolute materialism.

Human beings became accustomed to fornicating, and they became fascinated in this. Even now they prefer to live like animals rather than to self-realize.

The collective fornication was called the Universal Deluge. The human mind became animal because of desire. All the egos created were taken in pairs into Noah's ark so that, the day they decided to regenerate themselves, they would find the raw material in the Creative Energy of the Holy Spirit. From there would come Love or Fire and Wisdom or Light, upon learning to Die in oneself.

If you reflect a little on this, you can discover many things: on carrying out the construction of the Existential Bodies with the Sexual Creative Energy, we develop the Christmas tree. There Santa Claus goes on placing the different gifts (virtues, powers, faculties, forces, bodies, etc.). Without the Christmas tree there will be no Individual Christ. And therefore there will be no Gods.

Now you will understand why the two trees have common roots. The secrets of the Arcanum A.Z.F., etc.

If the exit took place through sex, the return to Paradise must also be made through sex. If we do not learn to practice Supra-sex, there will be no Regeneration possible. In sex lies the possibility of being of each human being. In sex lies the possibility of the Second Birth.

With the work in the Three Factors of the Revolution of Consciousness we will bring out all the secrets of the Ark.

Now, the most important thing is to understand the hypnotism in which we find ourselves, which does not let us value or have a true objective in existing. If we understand the illusion in which we find ourselves with the passing things of the material world, we will see how important it is to begin to work in our interior world.

It is fundamental that we understand very well that there are only two types of Matrimony:

- Those made with the purpose of fornicating, which are all of them. Because all human beings on this planet seek only pleasure and amusement, animal enjoyment without transcendent yearnings.
- The matrimony in which one commits oneself to the Holy Spirit never to fornicate, in order to be able to Self-realize the Being. In this way the process called “Regeneration” will begin

That Regeneration is to recover again the lost power. The process that we saw in the last conference, that of Genesis, in order to become Men, to recover all the potency and to regenerate our seed.

When one is going to work in the Tree of Life, the Fire and the Water must always go upward and inward. The Ascending Fire is called Kundalini.

If the Fire is lit, the whole Black Lodge comes down upon us to tempt us; then we have to be very prudent so as not to fall into adultery, because everything would be lost.

But there is another thing. If the person continues fornicating, for each fornication he loses two vertebrae. And if we look at it, for someone who wants to climb thirty-three (33) vertebrae for seven (7) bodies, well, it is a long work and it costs a great deal. Approximately twenty-four practices of sex to climb back those two vertebrae that were lost in the fall.

That is why we must understand how important it is to practice sex with Love, Fidelity and Chastity.

From now on you can keep this in mind. The most important thing: the reproduction of the beast is done through fornication, adultery and lack of love. When any of these takes place, we work to conquer the Abyss.

If the Ego is going to be finished off, we have to stop manufacturing more Ego. If one does not stop manufacturing egos, the Ego continues to grow. There is a need to begin a direct action against fornication, because it is fornication that, on the physical plane, spends all the energy that the physical body condenses.

When a person already has this Knowledge, he has to decide: the definition will be: Angel or Demon; there is nothing else. Only those two alternatives: either one goes one way or one goes the other.

End of Conference 50.
